**Subject:** Building Official's Comments

Below are the building officials couple of comments. I covered the other items in my sets of comments.

1. The total number of parking equates to 145 spaces not the stated 147.
2. Remove the first space on the curve at the parent drop off entrance. This is a difficult space to park, a hydrant appears to be located there and it is to close to the entry.

I am awaiting Fire's comments and should have them Tuesday.

Sincerely,

Dennis G. Goderre RLA, AICP CUD
